

LWI ELEVATOR TALK

EXCELLENCE — MADE SIMPLE

ELEVATOR CAB
INTERIOR COMPANY

CEILING, HANDRAILS, & BUMPERS

— Available Individually or as part of Any Interior

In this edition, we're highlighting one of the questions we hear most often: **Can I purchase your ceilings, handrails or bumpers separately?** The answer is **YES**. Every component we build — from our handrails and wall-protection bumpers to our full range of ceiling panels — is available as a stand-alone option or as part of a complete cab interior.

This is a four-page flyer for Elevator Talk (Edition 02). Inside, you'll find a closer look at ceiling and lighting options across the center spread, along with a full lineup of handrails and bumpers. Designed to outfit an entire cab, our components integrate seamlessly to elevate the overall cab experience.

ISLAND DOWNLIGHT CEILINGINGS

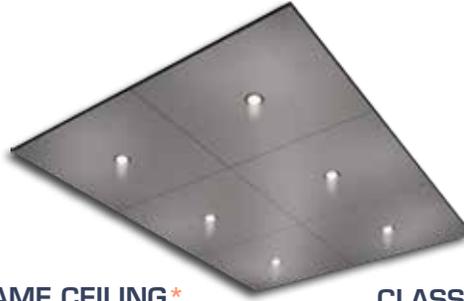

\$ CORECAB Essential

This T-Frame Ceiling is offered with our CoreCab Essential models, shown here in brushed aluminum.

ALUMINUM T-FRAME CEILING*

- Durable, Efficient, fully modular aluminum T-Frame ceiling system, available in a brushed aluminum or brass, or a black powder coated finish.
- Features a durable, impact-resistant twin-wall translucent Lexan diffuser paired with integrated LED troffers lighting for clean, uniform illumination.

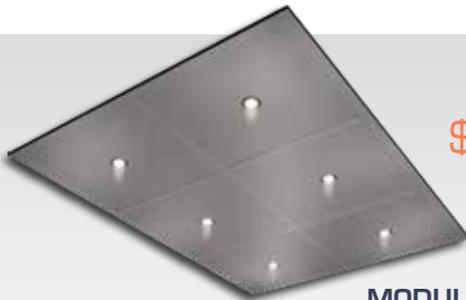

\$\$+

This ceiling model is a timeless, streamlined ceiling—shown in brushed aluminum.

CLASSIC ISLAND DOWNLIGHT*

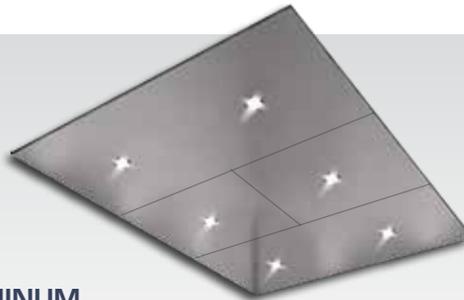

- Complete panel with a concealed frame for a clean, streamlined appearance
- Standard lighting includes 3" LED downlights with optional round or square bezels
- Lightweight core construction for easy installation and durability
- With a brushed stainless or brushed bronze finish

\$\$+

MODULAR, ALUMINUM T-FRAME CEILING*

- Standard lighting includes 3" LED downlights with optional round or square bezels
- Modular T-Frame available in brushed aluminum, brushed bronze, or a black powder-coated finish

\$\$+

MODULAR H-GRID ISLAND*

- Ultra-Lightweight core construction
- Standard lighting: 3" LED downlights
 - Round or Square Bezels
- With a brushed stainless or brushed bronze finish

\$\$+

SEEK PERIMETER-LIT ISLAND*

- Integrated LED perimeter lighting provides even, shadow-free illumination
- Adjustable-angle lighting for customizable task visibility
- Precision hairline-seamed emergency hatch for a clean, seamless appearance
- Available in all finishes shown on the adjacent page

\$\$\$+

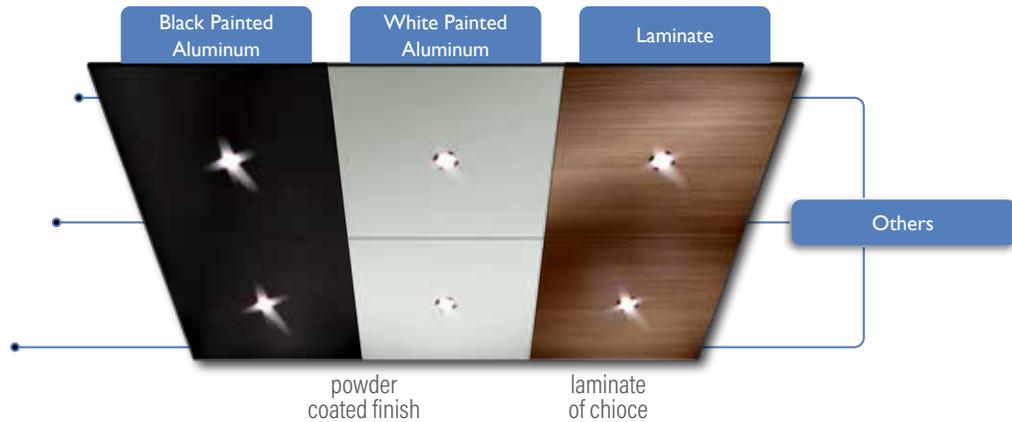

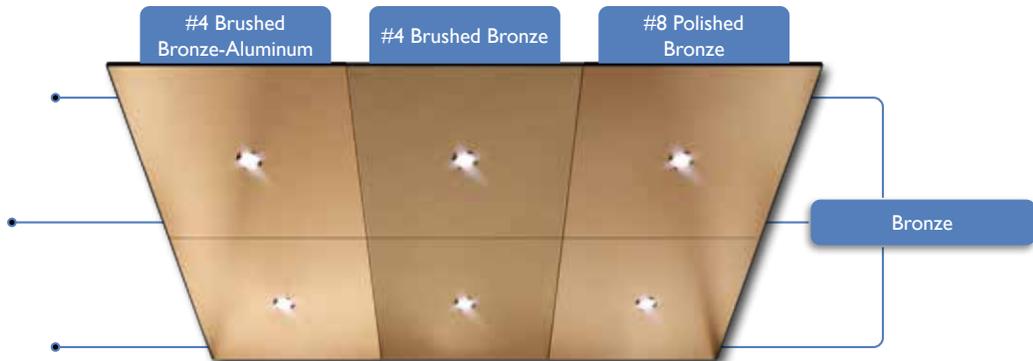

MODERN H-GRID ISLAND*

- Features two distinctive rectangular LED light panels that deliver a contemporary aesthetic and bright, even cab illumination
- Available in all finishes shown on the adjacent page

Our elevator cabs are typically equipped with Man-D-Tec lighting, and every ceiling we offer includes the option for integrated perimeter lighting.
