## EXCELLENCE — MADE SIMPLE

**Elevating First Impressions & Transforming the ride experience**

Decades of on-the-job insight shaped our approach to elevator cab construction and design.

### \$ CORECAB

— Essential, Durable, Efficient

### \$\$\$ PREMIER

— Design, Atmosphere, Mood

### \$\$ SIGNATURE

— Refined, Balanced, Versatile

### \$\$\$\$ LUXURY

— Exquisite, Emotion, Impact

## ELEVATOR CAB INTERIOR COMPANY

Our experience — from hands-on craftsmanship to real job-site insight — shaped a clearer, simpler approach to cab design that elevates first impressions and improves the ride experience. Meanwhile, we're proud to celebrate more than two decades of customer-first innovation — a journey that began in Kansas City crafting cab panels and grew in Cedar Falls into a full elevator-interior manufacturer.

Our customers are partners. Your goals shape the design, and our promise is straightforward: exceptional service and interiors built to perform. With hundreds of thousands of panels produced, our reliability speaks for itself — and our team is ready to help you get started.

To simplify selection, design, and ordering, we've organized our eight models into four clear price groups — CoreCab, Signature, Premier, and Luxury — familiar designs renamed with inspiration from America's heartland.

Choose from eight models, exclusive design options, and a wide range of materials — or let us source and build something branded and completely unique. Whether standard or fully custom, we're ready to bring your vision to life. And yes, our ceilings, lighting, handrails, and bumpers are available as standalone options.

Start crafting **YOUR** customized  
elevator cab design today!

## \$ CORECAB — ESSENTIAL, DURABLE, EFFICIENT

CoreCab is the essence of practical design. Built for reliability and everyday performance, it delivers a smooth, dependable ride without unnecessary embellishment. Clean finishes, smart material choices, and streamlined installation keep projects moving, while its durable construction ensures long-lasting value. Ideal for everyday environments and budget-minded builds, CoreCab offers effortless functionality where it matters most.

### STEP INTO SIMPLICITY.

#### RENAISSANCE | HARMONY (OUR BESTSELLER!)

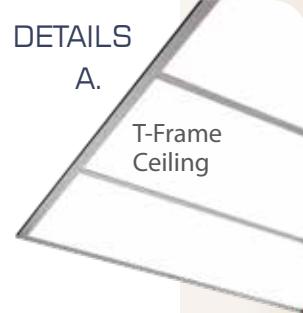

Formerly Renaissance, now Harmony. Our most popular interior, this design reflects timeless balance and understated refinement. Known for its warmth and enduring appeal, it remains a customer favorite. With its new name, Harmony continues to offer the same trusted comfort — now supported by a richer story rooted in tradition and modern innovation.

#### MAJESTIC | MOMENTUM

Momentum brings a sense of forward motion to the CoreCab lineup, pairing clean lines with a confident, modern aesthetic. Designed for projects that want a touch of sophistication without sacrificing practicality, this interior feels purposeful and composed. With its subtle visual energy and dependable materials, Momentum elevates everyday travel while staying true to CoreCab's promise of durability and efficiency.

#### PINNACLE | Lumina

Lumina captures the essence of clarity and brightness, offering a fresh, uplifting interior that feels open and inviting. Its refined simplicity highlights the quality of CoreCab craftsmanship, creating a space that feels both polished and approachable. Ideal for environments seeking a light, contemporary look, Lumina delivers a crisp, modern presence that enhances the ride experience without unnecessary complexity.

Like this price point and design but want to customize it?

Scan the QR code on the layout you prefer to jump straight into that cab's configuration with LWI's Cab-Builder Pro™.

Explore fully customizable cab packages with a wide selection of materials, lighting, handrails, and ceiling panels — all crafted for comfort, style, and functionality.

We've also simplified installation with our TruFit EZ-Template™ System, engineered to save time and save you money.
